ABOUT BAETC

BAS Aircraft Engineering Training Centre (BAETC) is a premier EASA & BCAA-certified aircraft maintenance training institution, dedicated to developing world-class aviation professionals. Established in 2006, BAETC has trained and certified aircraft maintenance engineers across 38 nationalities from five continents, making it a recognized leader in aviation education.

BAETC serves as both a revenue-generating unit for Bahrain Airport Services (BAS) and a key talent incubator for the aviation industry. With a curriculum aligned with EASA Part-66 standards, BAETC provides practical and theoretical training that prepares students for real-world aviation careers.

مركز باس لتدريب هندسة الطائرات
BAS AIRCRAFT ENGINEERING TRAINING CENTRE

Aircraft Maintenance License program

EASA Part 66 License
